

NEVER LET A MISPRINTED LABEL STOP YOUR SUPPLY CHAIN!

Introducing Gaea Cloud Label Service

Gaea Cloud Label Service is a subscription service for all Oracle products that gives organizations the freedom and flexibility to easily design and manage the label lifecycle. Collaborate with suppliers and share label templates to ensure that stakeholders always have current, correct label templates. Eliminate emailing and mailing mass labels forever. Increase efficiency and reduce label misprint costs!

Features

- Label upload
- Oracle SCM connection, Cloud and On-Prem
- Industry-standard templates
- View, test, print
- Field mapping utility
- Web service events
- Cloud subscription

Benefits

- Reduce labeling costs
- Improve regulatory and customer compliance
- Increase supplier collaboration

5 EASY STEPS TO LABEL PRINTING PERFECTION!

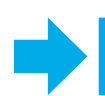

UPLOAD LABEL
template(s) to cloud

SHARE LABEL
with suppliers,
other users

TEST and VERIFY
supplier prints test labels
and verifies accuracy

IMPORT
label data

PRINT LABELS
process complete!

GAEA CLOUD LABEL SERVICE (CLS) DETAILS

Label Templates

- Upload label template files
- View uploaded templates
- Parse .zpl file into a viewable .png format
- Manually view and print templates to confirm label appearance with entered data
- Print .pdf labels from manually entered data or .csv data uploads

Automate Reverse Logistics (RMA) Flow

- RMA order is booked in source system, web service sends to cloud labels and host system (EBS or Cloud)
- CLS auto-emails RMA label template to customer to be included with returned package
- Host system creates a record ready to receive the RMA

Auto-Print Labels Based on Business Events

- Automatically print labels based on business events including wave release, receipts, and shipping confirmations
- As orders are released / waved and allocated, web service sends task/order info to auto-populate and print labels

The screenshot displays the Gaea Cloud Label Service (CLS) interface. On the left is a navigation sidebar with options: HOME, LABEL GROUPING (selected), RULES, USAGE ANALYTICS, and CLONE. The main area shows a 'Design View' of a 'Gaea Stock Label' template. The label design includes fields for LPN, Item No., Lot No., and Qty (500). Below the design view is a table titled 'Labels (184)' with columns: LPN, Item, Qty, LotNumber, and Copies. The table lists three items:

LPN	Item	Qty	LotNumber	Copies
112121211	SKU29292	100	10000001	2
3344333	ITM56565	75	10100001	2
45676868	FGKSDSD	90	111001110	2
