

GAEA DELIVERS SUCCESSFUL ENTERPRISE PROJECT PORTFOLIO MANAGEMENT (EPPM) FOR CLIENTS IN EVERY INDUSTRY

Leverage enterprise agility, productive teams, portfolio predictability, and efficient project management.

Gaea is the leading Oracle Partner to implement Primavera, the enterprise project portfolio management (EPPM) solution for project-intensive industries. We help clients manage their mission-critical project requirements in industries including high-tech, infrastructure, public sector, manufacturing, energy and resources, and healthcare and life sciences.

Our solution implementation results are reduced costs, minimized risk, streamlined processes, and the ability to deliver results to stakeholders while accelerating project outcomes. Easily manage your organization's entire portfolio throughout the project lifecycle with Primavera's best-in-class EPPM suite of products, including P6, Unifier, Analytics, and Risk Analysis.

Primavera P6

Strengthen your business with the most powerful, robust, and easy-to-use solution for globally prioritizing, planning, managing, and executing projects, programs, and portfolios in asset-intensive industries.

Our cutting-edge solutions and services for P6 span the entire enterprise project lifecycle. Our global team of Primavera solution architects, technology professionals, and domain experts caters to your organization's specific needs, from strategic project management consulting in your industry, to solution architecture, business process re-engineering, best practices, support, and technology services.

Primavera Unifier

Gaea is the leading Oracle implementation partner for Primavera Unifier, the best-in-class project lifecycle management solution for capital planning, project delivery, cost control, and facilities and asset management (FAM). By using Agile and Scrum methodologies in our implementation process, we are able to deliver multiple modules with short iteration times.

or more in multi-project management, delivering better control of capital allocation.

in project and construction management efficiency.

in capital efficiency through business automation and systems integration.

or more in reporting efficiency.

in operational efficiency resulting from adopting common processes.

in transparency of practices, risks, costs, trends, and change requests to support compliance.

Primavera Analytics

Gain valuable insights into your Primavera P6 EPPM and Primavera Unifier project portfolio performance so you can monitor trends, track down the root cause of issues, and ensure your stakeholders have clear visibility into schedules and costs.

Primavera Risk Analysis

Integrate cost and schedule risk management while leveraging a comprehensive means of determining confidence levels for project success.

PMO Services

Our highly-trained team of seasoned Primavera project managers, schedulers, and document control specialists are deployed on a shared-services model to rapidly staff your projects. Our team spans the globe, adding significant value at a reasonable cost.

Our team is experienced in handling large, complex capital projects in multiple industries, and will ramp up your organization's project needs using the latest solutions. Think of us as an extension of your organization as we provide data input, data analysis, remote project support, and consistent, quality reports to stakeholders, project managers, and field personnel.
