

## GAEA WILL MOVE YOUR ORACLE PRIMAVERA SYSTEM TO THE CLOUD

### Gaea's Proven Cloud Migration Program

Gaea offers a proven migration program that takes firms with existing Oracle Primavera on-premise environments to the Primavera Cloud. Our approach is unique. We don't just offer IT services, our project portfolio management experts and PMI-certified Project Management Professionals (PMPs) can optimize your business processes to provide your firm with unique competitive advantages in your industry.

### Why Choose Gaea for Cloud Migration?

Gaea is the leading Oracle Partner specializing in maximizing Primavera software potential by enabling best-practice project-management processes. We help clients achieve maximum ROI on their Primavera software investments in a risk-mitigated way. We optimally configure and model the software, leveraging our domain and systems expertise to analyze and improve business practices. We always ensure that the software works in harmony with your newly optimized processes. And because our teams are comprised of both onsite and offshore resources, we deliver optimal results at an excellent price.

### Why Migrate to Primavera Cloud?

Is it time for you to move from your existing Primavera on-premise applications to Primavera Cloud applications?

Consider some of the benefits:

- **New functionality.** You'll enjoy all the on-premise functionality and more! Your users will continue to use the project portfolio management solutions they already know, but with a modern user interface and greater depth and breadth of functionality.
- **Reduced TCO.** Primavera Cloud may significantly reduce your total cost of ownership (TCO) for Primavera applications that run your business, while leveraging your prior investment in Primavera on-premise applications.
- **Auto-updates.** Primavera Cloud applications have a continuous release cycle with frequent enhancements. No more arduous upgrades!
- **Predictable costs.** Primavera Cloud application pricing provides you with predictable costs that include future upgrades and maintenance.

# GAEA MIGRATES YOUR USERS AND DATA TO PRIMAVERA CLOUD

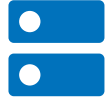

Gaea makes it easy to upgrade and migrate your existing Primavera P6 users and data to Primavera P6 Cloud. Our experts collaborate with you to build a customized migration strategy, including:

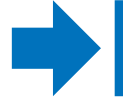

ASSESSMENT

PLAN

UPGRADE

MIGRATION

REPORT DEV

INTEGRATION

## Assessment

Gaea will review your current Primavera P6 environment and processes to determine whether your business operations will benefit from a migration to Primavera Cloud applications.

## Plan

If we determine that your organization is a good fit for a Cloud migration, we will identify your migration path, the areas of new functionality you'll want to adopt, and we'll prepare a detailed action plan for migration.

## Upgrade

If necessary, Gaea will upgrade your on-premise Primavera apps to facilitate Cloud migration.

## Migration

Gaea will migrate your Primavera P6 data and users to Primavera P6 Cloud.

## Report Development

If desired, Gaea will create custom reports for your business.

## Integration

If your organization requires integration with third-party systems, Gaea's experts build cloud integrations to suit your business operations.

## Next Steps

Gaea has many performed Primavera Cloud migrations for mid-sized firms and multinational corporations. Through our extensive experience, we have developed tools and methodology to quickly deliver optimal results.

After the initial assessment, Gaea prepares a detailed project plan to address your organization's unique environment, including Oracle's setup and upgrade time.

## Let's Get Started!

Gaea's decades of experience with Oracle Primavera solutions empower us to help your organization obtain the maximum ROI from your enterprise project portfolio management systems.

Contact us at [sales@gaeaglobal.com](mailto:sales@gaeaglobal.com) or 844 987 4232 and we will provide your organization with reduced total cost of ownership, expanded functionality, and increased efficiency delivered by Primavera Cloud.
